

Universal Magazines uses CTP Technology in production of this magazine. Complete material is to be supplied as a high-resolution PDF only

Note: It is essential to send a colour proof regardless of whether your advertisement is sent via email or CD/DVD.

PDF FILES WILL BE ACCEPTED BY:

Websend To use Websend visit www.websend.com.au and register, or for assistance call Websend Support on 03 8689 9000 or toll free (Aus) on 1300 798 949

Quickcut For more information regarding Quickcut services please contact: Technical Support 1300 768 988, www.quickcut.com.au

DIGITAL SPECS:

- All images MUST be 300 dpi at 100%
- Images and graphics used in the document should be saved as Greyscale or CMYK. Elements saved in the RGB or spot colour mode are not acceptable. Please check all files carefully as RGB and spot colours will not print accurately.

Note: We do not accept Powerpoint, Word, Excel, QuarkXpress and Publisher files. Also, please take care when setting up your files to ensure that no overprints have been unintentionally used. We will not take responsibility for files set up with an overprint, which can cause a file to print incorrectly.

PROOFS:

Please include a colour proof with all material. If a commercial 3DAP proof is not supplied, we cannot be held responsible for the colour of your printed advertisement.

Universal Magazines will only take responsibility for accurate colour reproduction of a digital ad if a digital proof is supplied in accordance with 3DAP guidelines. Visit www.3dap.com.au. For more information or to obtain a 3DAP proof, you can contact Websend (03 8689 9000).

Note: Colour matching cannot be done unless a colour commercial 3DAP printer proof is supplied. If a proof is not supplied we will not accept responsibility for exact colour reproduction. Laser proofs are not considered a commercial printer proof.
